THE MAYOR'S CORNER

JUNE 2013

If I can regress to a teenager for a bit---Hooray!!! Schools Out!!

Every year there are complaints about children playing in the streets and traffic moving too fast. I'm sure this year will be no different. If everyone will please be aware we can achieve another accident free vacation period. This is obviously going to take obedience of the law, common sense, and of course, some courtesy shown by all. Please assist in doing your part.

The final mechanical upgrades have been completed and the new landscaping is in at the main lift station located at the JFK entrance. I've received many favorable comments and have tried to pass them on to our staff and contractors for the work they accomplished without interruption of our service. Other than taking slightly longer than anticipated, the project appears to be a great success. The new pumps are not only more energy efficient, they are able to handle much more of the debris that ends up in our sewer system. This will eliminate repeated clogging and cleaning of the system necessary to keep the sanitary sewer system working. The system has a standby power system to ensure that we have continuous operation.

Many of us have undoubtedly seen the new property valuations re-

leased by the county. Although Atlantis did not experience as great an increase as some other cities, we are pleased with the 2.6% increase projected by the Property Appraiser.

Staff is currently preparing initial 2014 budgets and analyzing the remainder of 2013. We have been doing very well compared to estimates for the current fiscal year. If finances occur as planned and experienced previously, we should not have any negative carry over or deficits. Management and council will be again be utilizing workshops to finalize the new budget and set tax levies. The process normally takes the preparation of several drafts before completion.

Please have a great summer. I hope everyone enjoys summer whether you are vacationing, living up north, or just "hanging out" at home. Please remember that the staff normally takes well-deserved time off this time of year also. Regardless, they do a great job of "keeping the lights on" for all of us.

Please remember to be prepared, even though we are not expecting any storms this year. Are we?

Thanks always for your assistance and support.

Yours truly,

Mayor Mike Dahlgren

City of Atlantis
260 Orange Tree Drive
Atlantis, FL 33462

2013 Resident Decals Are Available

Manager's Notes June 2013

Some congratulations are in order this month. First to Chief Robert Mangold; Chief Mangold received the 2013 Home Rule Award from the Palm Beach County League of Cities for his work on the Countywide Interoperable Radio System. The League gives this award on an annual basis to the individual that has worked to promote the collective interests of the cities in Palm Beach County. Bob has worked tirelessly for the last 15 years on this project. He persevered when others gave up, but in 2012 his goal was accomplished when Atlantis went on the interoperable radio system. It has been a tremendous improvement to our community to be able to communicate via radio with all the other police jurisdictions in the county. It adds to the safety of the officers and the residents of Atlantis. Congratulations Bob!

Tracey Kouf is one of five teachers who won the 2013 William T. Dwyer Awards for Excellence in Education. Tracey won the Career Education Award for her work as an instructor of the early childhood teacher academy at Santaluces High School. Congratulations Tracey!

From time to time we at city hall are made aware of marketing material mailed to our residents from companies seeking to do water testing or sell warranty plans for underground lines. Water testing and warranty plans are not necessary. Our water comes from Palm Beach County Utilities and has been tested in many different ways before it reaches you. As always, you should be an informed consumer. Many of these solicitations are used as a vehicle to sell unneeded products or services. If you ever have a question about these or any solicitations please feel free to call me.

Hurricane Season is here! Check your hurricane plan and be ready. Sign up for emergency alerts at <https://pbcc.onthealert.com>. Follow the prompts.

Mo Thornton
City Manager

City News...

The City of Atlantis Council Meeting was called to order at 7:00 p.m. on May 15th.

The City of Atlantis experienced another quiet month as there were no new Ordinances or Resolutions.

In Miscellaneous business, State Representative Lori Berman made an appearance and brought Council up to date about what is going on in our District 90 and that the State has a budget surplus.

Council discussed the improvements of our garbage services and the improvements of the gate guards.

William Mitchell

(official minutes at www.atlantisfl.gov)

Important Reminder...GARBAGE INFORMATION

Curbside Pick Up - YARD WASTE AND BULK ITEMS— MONDAYS ONLY – placed curbside after 5 pm on Sundays. *Exception, on the first Sunday of each month items may be placed at the curb after noon for Monday pickup.

Backdoor Services- HOUSEHOLD GARBAGE– MONDAYS AND THURSDAYS – RECYCLE ON THURSDAYS.

Landscape Debris- Generated by a paid landscape maintenance company must be removed on the day of generation by the maintenance company. (City of Atlantis Code of Ordinances 8.3-9) Questions, Call City Hall at 965-1744.

POLICE DEPARTMENT NEWS

Chief Robert G. Mangold

Community Safety through Community Awareness and Involvement:

Crimes: The City had a burglary in the Muirfield Villas at the end of April; unfortunately we have had three more in the Muirfield Villas in May. We believe the perpetrators were probably juveniles and that they entered over the fence bordering the south side of the villas. Nothing was stolen in any of the burglaries.

While it is highly unusual for Atlantis to experience these crimes, it is likely that they may continue until the perpetrators are apprehended. The Police Department is requesting all City residents to please report anything of a suspicious nature, use your alarm system if you have one, and if you don't, consider having one installed.

Hurricane Season - The National Weather Service is anticipating a very active hurricane season this year: As we have advised in the past several years, federal, state, and county emergency management officials are emphasizing to all citizens that plan to remain in their homes in the event of a hurricane, to be prepared to be **self-sufficient** for a minimum of five to seven days; this includes water, food, and medical supplies. The rationale behind this position is based on the lessons learned from recent natural disasters. Federal, state, and local governments have discovered that they are not able to marshal their resources any faster than this. In addition, depending on the severity of the disaster, or the number of disasters requiring emergency response, assistance may not be forthcoming before five to seven days due to an overtaxed emergency response system. Finally, citizens should not rely totally on their government to provide for their safety, but need to accept a modicum of responsibility for their own welfare.

The police department will compile a list of those residents with special needs (medical problems), that will be staying in Atlantis throughout the hurricane season. The department wants to determine what services our residents with special needs may require in the event of a hurricane, and based on those needs may find it necessary to recommend evacuation to individuals that may be at risk if they shelter in place. Please contact Robin Ackerman at 965-1700 to provide us with your information.

For hurricane preparation information please go to the Red Cross website at www.redcross.org, and review the links dedicated to disaster preparedness. These links provide all the information necessary to plan for any type of natural, or man made disaster whether in your home, school, work, or community. Another excellent website is FloridaDisaster.org.

 BURGLARY 1 (Residential)

Palm Beach County Water Utilities Department to Flush Lines with Chlorine Starting July 15

To maintain high water quality in the County's water distribution system, Palm Beach County Water Utilities Department will temporarily modify the disinfection process used to treat our drinking water. The County will use a somewhat stronger disinfection process to produce chlorine residual instead of a chloramine residual from **July 15 to August 16, 2013**. The County will also increase hydrant flushing during this time. This is a preventative maintenance process. Customers served by the Palm Beach County Water Utilities Department may notice a slight chlorine taste or odor in their tap water during this period. These temporary conditions will not cause adverse health effects.

If you are especially sensitive to the taste or odor of chlorine, keep an open container of drinking water in your refrigerator for a few hours to allow the chlorine to dissipate.

Users of home dialysis machines, owners of tropical fish and managers of stores and restaurants with fish and shellfish holding tanks are advised to seek professional advice as the method for removing chlorine residuals differs from removing chloramine residuals from tap water.

This process will not affect Glades Utility Authority customers in Belle Glade, Pahokee and South Bay.

Should you need more information on this change in the water treatment process, please call the Palm Beach County Water Utilities Department at (561) 740-4600, option #3.

Displaying the flag outdoors

- When the flag is displayed over a street, it should be hung vertically, with the union to the north or east. If the street runs north-south, the stars should face east. For streets running east-west, the stars should face north. If the flag is suspended over a sidewalk, the flag's union should be farthest from the building and the stars facing away from it.
- When the United States flag is displayed with the flags of states of the union or municipalities, and not with the flags of other nations, the federal flag, which represents all states, should be flown above and at the center of the other flags. 4 U.S.C. § 7(e). The other flags may be the same size but none may be larger.
- No other flag should be placed above it. The flag of the United States is always the first flag raised and the last to be lowered.
- When flown with the national banner of other countries, each flag must be displayed from a separate pole of the same height. Each flag should be the same size. They should be raised and lowered simultaneously. The flag of one nation may not be displayed above that of another nation in time of peace.
- The flag should be raised briskly and lowered slowly and ceremoniously.
- Ordinarily it should be displayed only between sunrise and sunset, although the Flag Code permits night time display "when a patriotic effect is desired." Similarly, the flag should be displayed only when the weather is fair, except when an all-weather flag is displayed.
- It should be illuminated if displayed at night.
- The flag of the United States of America is saluted as it is hoisted and lowered. The salute is held until the flag is unsnapped from the halyard or through the last note of music, whichever is longer.

Hurricane Preparedness Guide

This hurricane guide has been designed to provide you and your family important hurricane protection and safety information. Please keep this guide as a reference June 1-Nov 30, 2013.

Now that the hurricane season is here, it is important to be as prepared as possible. Here are some helpful tips:

- ◆ Put important documents and phone numbers in a waterproof container.
- ◆ All trees and shrubs should be trimmed by now – do not do any trimming before a hurricane is about to come.
- ◆ Monitor the tropics: tune into local television and radio stations; heed the advice of local authorities; evacuate if ordered. Do not return until it is safe to do so.
- ◆ Remove lawn furniture, pots, plants or any other outside items that could be potential projectiles.
- ◆ If a storm watch has been issued, do not place yard waste, recycling, or garbage at the curb. Please be patient until normal collection resumes.
- ◆ You can get helpful information regarding power outages, etc. by going online at FPL.com. To report a hazardous condition or power outage, please call 1-800-4OUTAGE (1-800-468-8243).

If you haven't already prepared a hurricane emergency supply kit, do so now. Remember to include such items as:

- Three gallons of water per person
- Canned & ready-to-eat food, fruits, crackers, etc. and foods that do not require cooking
- Manual can opener
- First aid kit, prescription and non-prescription drugs
- Matches in a waterproof container

- Paper cups, plates, and plastic utensils; foil, plastic wrap & plastic garbage bags
- Personal hygiene items such as soap, toothpaste and toothbrush, toilet paper, etc.
- Liquid bleach to treat drinking water
- Cash – ATM's may not be operating after a storm

Here is a list of local phone numbers to further assist you:

- **EMERGENCY 9-1-1**
- **ATLANTIS POLICE 965-1700**
- **CITY HALL 965-1744**
- **UTILITIES DEPARTMENT 965-1744**
- **511– provides traffic information– road conditions and construction updates 24 hours a day.**

Here is a list of websites that may also assist you:

- **FEMA- WWW.FEMA.GOV**
- **STATE– WWW.FLORIDADISASTER.ORG (SERT HOME PAGE)**
- **COUNTY– WWW.PBCGOV.COM**
- **LOCAL-WWW.ATLANTISFL.GOV**

Help your neighbors if they are unable to prepare by themselves. Let us all band together and stay as safe as possible this season.

Storm Water

www.StormwaterAndMe.org

By knowing the facts and being aware, you can help clean up our lakes and waterways. Always remember, **nothing but stormwater** belongs in the storm drains.

Be on the lookout for anything being dumped into storm drains or water bodies. Some common illegal discharges to storm drains include:

Pool Care: Discharge of chlorinated pool water into the city's storm drain is prohibited. Pool water must be de-chlorinated and discharged on to the ground, not into the storm drain system. Discharge from pool maintenance, replastering or other construction is strictly prohibited.

Lawn Care:

- Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts.
- Use organic mulch or safer pest control methods whenever possible.
- Compost or mulch yard waste. Don't leave it in the street or sweep it into storm drains or waterways.
- Don't overwater your lawn. Consider using a soaker hose instead of a sprinkler.
- Cover piles of dirt or mulch being used for landscaping projects.

House Care and Maintenance:

- Purchase biodegradable, non-toxic products.
- Use, store and dispose of products as directed on the container.
- Sweep up and properly dispose of any construction debris.

Vehicle Care:

- Use a commercial car wash or wash your car on a lawn or other unpaved surface.
- Check your vehicle regularly for leaks and/or spills. Clean up and properly dispose of materials used for spill clean up. Repair leaks as soon as possible to prevent future spills.

- Antifreeze
- Automotive fluids
- Construction debris (wood, drywall, concrete, mortar)
- Debris (plastic bags, six-pack rings, bottles, and cigarette butts)
- Detergents
- Disinfectants
- Excessive dirt and gravel
- Fertilizers
- Insecticides
- Grease
- Oil filters
- Paint
- Pesticides
- Pet waste
- Solvents/degreasers
- Trash
- Yard waste (leaves, grass, mulch)
- Take the time to educate others on the negative impact of dumping into a stormwater system.
- Call the City of Atlantis Police at 561-965-1700 to report dumping and discharges into stormwater systems.

Paying Your Utility Bill Has Never Been Easier!!

Option 1. We still take cash and checks!! Bring or mail your payment to City Hall 260 Orange Tree Drive, Atlantis Florida 33462. There is also a drop box in the rear parking lot at City Hall for drive up drop off of your payment.

Option 2. The City takes credit cards for the payment of the utilities bill and other city charges. In order to pay your bill via credit card, follow these simple steps:

Go to our web site: Atlantisfl.gov

Click on "City Government"

Click on "Utilities"

Click on "Online Utility Payments"

Click on "Pay Utility Bills"

Fill in required information on the form and submit. You will receive an email confirmation.

Option 3. Auto Draft Services- No postage, No late charges, No checks to write!

The City of Atlantis Utilities provides customers with the convenience of Auto Pay for their Utility Bills. By providing us with your bank information, the City is able to automatically deduct your utilities payments from your account. You may sign up for this service at any time.

Q. How do I sign up for Auto Draft Services?

A. Complete the authorization form and send it, or drop it off at City Hall.

We are located at 260 Orange Tree Drive, Atlantis, Florida 33462.

Q. How will my bill be paid?

A. On the fifth of the month following the bill date, your account will be debited for the amount of your bill.

Q. Do I have to bank with a certain bank?

A. Your financial institution must be able to access the Federal Reserve Automated Clearing House (ACH). Most U.S. Financial institutions have access to this network. Payments must be made in US Funds.

Please complete this form and return it along with a voided check.

I authorize the City of Atlantis to instruct my bank/savings institution to make my utility payments from the account listed below. I understand that I control my payments and at any time I wish to discontinue this service, I will notify the City of Atlantis Utilities. I further understand that items returned unpaid are subject to fees by the city.

Flood & Hurricane Awareness Expo

Flood Insurance... The Squeeze Is On!

Will It Impact You?

BOYNTON BEACH MALL

Saturday, June 15, 2013

10:00 am - 3:00 pm

Brought to you by: Community Rating System Users Group, Palm Beach County Division of Emergency Management & the Boynton Beach Mall

FLOOD HAZARD & PREPARATION INFORMATION**THE LOCAL FLOOD HAZARD**

Every property is at risk of flooding. In fact, there is a 26% chance of experiencing a flood during the life of a 30-year mortgage. Many factors contribute to flooding in areas not designated as Special Flood Hazard Areas. The greatest flood threats come from excessive rainfall that accompanies coastal storms, tropical storms and hurricanes. Finished Construction Elevation Certificates are on file.

The Flood Insurance Rate Map (FIRM) provides flood zone determinations to advise if you are in a flood hazard area. Property within the City of Atlantis is located in several different flood zones. Most properties east of Villa Drive (North and South including Villa Drive) and along Atlantis Blvd. are located in the special flood hazard due to Lake Atlantis and Lake Atlantis South. Properties in Palm Circle adjacent to the C-15 lagoon are in the special flood hazard area. All properties west of Villa Drive are not in a special flood hazard area. You may contact City Hall to find out what flood zone your property is located in.

FLOOD INSURANCE

Homeowner's insurance policies DO NOT cover losses due to flooding. There is a 30-day waiting period. Please note that new flood insurance policies will not be written once a storm is approaching. The City of Atlantis participates in the National Flood Insurance Program, which makes flood insurance available to everyone in the City. For most, a home and its contents are their greatest investment. If your property is even subject to the possibility of flood damage, from hurricanes or otherwise, you should be protected with an NFIP Flood Policy. Contact your insurance agent and have him or her discuss the types of coverage available to you. For additional information about flood insurance, visit FEMA's website at: www.fema.gov/business/nfip/

FLOOD SAFETY

There is no substitute for advance planning and preparation. Be aware of what steps to take to minimize your losses due to flooding. Prepare and annually update an inventory of all personal property with descriptions and photos, store drinking water in clean containers, keep a portable radio and flashlights on hand with fresh batteries, and have adequate first-aid supplies on hand. The local television and radio stations will warn you when it is necessary to secure your property and evacuate. Live electrical lines cause most hazards. If it appears that floodwaters will enter your home, turn off all electric and gas service. If you find that water has entered your home, do not touch electrical switches or appliances to either turn them on or off. Outside, avoid any pools of water in which a downed power line is laying. You must assume that all downed power lines are energized. Do not drive through a flooded area.

To create a personalized disaster preparedness plan for your family and/or business, please visit the State of Florida Disaster preparedness website at: www.floridadisaster.org

SUBSTANTIAL IMPROVEMENT REQUIREMENTS:

The National Flood Insurance Program (NFIP) requires that, if the cost of the reconstruction, rehabilitation, addition, or other improvements to a building equals or exceeds 50% of the building's market value, the entire building must meet the same construction requirements of a new building.

PERMITS

The City of Atlantis Building Department requires permits for all construction. This includes new construction, repair/replacement work, additions, signs, fences, fill, tree removal, etc. The City of Atlantis has adopted the Florida Standard Building Code. Parts of this code regulate the amounts and types of construction in the floodplain. You must always consult with the building official when planning any kind of construction. When others violate our floodplain laws, it could affect your property. The building official should be made aware of such activities.

THE FLOOD WARNING SYSTEM:

The City has a reverse 911 telephone dialing system that will notify of pending storms. In addition, copies of Palm Beach County's Flood Warning Program are available at your nearest county library. Palm Beach County Emergency Management maintains direct contact with the National Weather Service. Local television and radio stations will broadcast hurricane associated flood warnings 36 to 48 hours prior to the flooding event. When the National Weather Service forecast intense rainfall, our drainage system can be lowered in an attempt to receive the extraordinary volume of water expected. During periods of prolonged rainfall, areas of the county are kept under surveillance and reported to the Emergency Operating Center. When advised of problem areas, response actions will be taken. When you detect street flooding in your own area, tune to a television or radio station known by you to have an active news bureau. You will be advised of measures you should take to protect your property and yourself. If you have a weather band radio, tune it to NOAA, weather radio frequency 162.475 MHz to receive local weather updates.

PROPERTY PROTECTION MEASURES

When it appears that your neighborhood is becoming seriously inundated, there are simple things you can do to protect your property: things such as sandbagging building entrances and moving your motor vehicles to higher ground; raise furniture off the floor or move it to upper floors. Many of the things you own are not only valuable but are considered by you to be irreplaceable. These items should be elevated above the floor level to protect them from flood damage. Store materials like tarps, sandbags, plastic sheeting, plywood, and lumber to protect structures, and to make quick repairs after a severe storm. Board up or shutter windows and doors. FEMA resources can now be accessed online at www.pbclibrary.org/grsmainresources.htm

DRAINAGE SYSTEM MAINTENANCE

The Lake Worth Drainage District maintains the lateral canals in Atlantis. The Public Works Department maintains the remaining swales and storm drains. To reduce the risk, severity or duration of flooding; it is vital to maintain the water-carrying capacity of the drainage system. Florida law prohibits the willful obstruction of our drainage systems and provides both civil and criminal penalties for anyone convicted of such a felony. Anytime you see debris partially or completely blocking a storm drain opening please remove and dispose of the debris or call at the City at 561-965-1744. It is illegal to dump or throw anything into the ditches and canals. If you see anyone disposing of anything, including liquids, trash, vegetation or any other debris into any component of the drainage system please report it immediately to the Atlantis Police Department at 561-965-1700.

BENEFICIAL FUNCTIONS OF THE FLOODPLAIN:

These benefits take many forms:

Natural flood and erosion control: Provides natural flood and erosion control by flood storage and conveyance, and reducing flood velocity.

Water quality: Improves water quality by filtering nutrients and impurities from runoff.

Ground water recharge: Recharges the ground water while simultaneously reducing the frequency and duration of surface flow.

Biological resources; Supports high rate of plant growth, provides breeding and feeding grounds and enhances water fowl habitat.

Societal resources: Provides open space, aesthetic pleasures for the community and opportunities for scientific and environmental research studies.

NPDES (National Pollutant Discharge Elimination System) REQUIREMENTS:

The City of Atlantis must follow the Federal government's requirements in our NPDES permit. It is everyone's responsibility to protect our water resources. Please do not directly discharge any used water into our watercourses. Simple examples are washing vehicles in close proximity of a storm drain and storing chemicals outdoors. The law prohibits dumping toxic waste, including pesticides, into the ground or groundwater. TOXIC or hazardous wastes include such things as oil and antifreeze. If you see anyone disposing of anything into any component of the drainage system, please report it immediately to the Atlantis Police Department at 561-965-1700.

Outdoor use of pesticides, herbicides, and fertilizers must be applied sparingly to avoid contamination of our surface waters. Please follow directions and do not overspray pesticides or herbicides. Also please do not apply amounts in excess of the recommended amounts for fertilizers. Organic or slow release fertilizers are preferred as these are less likely to be washed off into the storm drain system. Also, please apply only to the targeted areas and remove excess from any paved surfaces. South Florida is a sub-tropical rainfall region, so please consider reducing applications in the wet season and/or apply early in the morning to avoid our typical afternoon thunderstorm pattern in the wet season (June through October).

Summer Membership

Welcome

We at the Atlantis Golf Club
are pleased to present our

Summer Membership

Our Summer Golf Membership gives you use of all the Club facilities starting May 1, 2013 and continuing through October 31, 2013
