The City News

AUGUST 2009

THE MAYOR'S CORNER

Dear Residents,

I hope this newsletter finds everyone well and that the sweltering heat and intense humidity is not adversely impacting you. As my Drill Sergeant repeatedly told me during Basic Training... "Private Nandez, you gotta Hydrate, Hydrate, Hydrate." I quickly learned that he knew what he was talking about so I encourage you to heed that same warning and "Hydrate".

If there is a song with the word "**budget**" in it, I would surely like to sing it because that is exactly what we have been aggressively working on for the past few months. I would like to inform you that it appears that we are close to delivering a workable "budget" that takes in the same amount of dollars that we budgeted last year. In essence, we are trying to remain dollar neutral with every effort focused on not cutting any services and we are very close to achieving this goal. If it were not for the outstanding effort of our city manager and the loyalty and sacrifices of our city staff, we would likely be in a different scenario right now. For this, I publicly thank them and remain optimistic that in this next month we will arrive at a final budget that places the City in the best scenario possible.

The economy has hit some harder than others and in looking at the real estate around our city, you can observe that there are a few properties that look, well, quite terrible. I know that I immediately think, 'what is, or, is anything being done about these properties?' Well, let me share some

insight on this topic. Each day, Atlantis's code enforcement officer, as well as other municipal employees report back to City Hall with any compliance issues they observe. Next, these issues are quickly followed up on to see if the owners are aware of the property condition with the anticipation that a swift resolution can be achieved. If the property is not brought into immediate compliance, a warning or citation is issued and penalties begin to accrue, sometimes on a daily basis. If the property is not brought into compliance and the fines remain unpaid, a lien can be placed on the property. The caveat to all of this process is that time passes, and it appears to the community that nothing is being done about it, when in fact a remedial process has already been established to address it. I have been asked, "well why don't you just fix it and bill the owner?" The answer to that is - we can't because it is private property and unless the violation poses a grave threat to the community, we cannot act any more aggressively than what is allowed by law. Now, considering that I cannot represent every possible circumstance in this newsletter, suffice it to say that even though it may look like nothing is being done about it, more than likely it is. However, it never hurts for you to communicate your concerns to City Hall. That is, after all, one of the reasons we are here.

Have a great Month.

**Serving Proudly,
Mayor Manny Fernandez**

The next City Council Meeting is Wednesday, August 19, 2009 at 7:30 pm.

Council Meetings are held the third Wednesday of each Month in the Council Chambers.

Manager's Notes – August 2009

The Heart Trail project is making good progress. The path has been constructed, we are now working on the irrigation and landscaping. The City received a \$34,000 state recreation grant to make this park improvement. That should go a long way to beautify the west park and make it a great place to exercise. We will re-dedicate the park in the fall – perhaps with a new name. I am still looking for suggestions for the name.

A big Thank You to Barbara Kreisman. In response to my column last month, Barbara Kreisman sent me a note about the cotton growing in Prudie Anderson's yard. It seems that Mrs. Kreisman has been growing Wild Cotton in her yard on Muirfield Drive for several years. Perhaps with the help of a bird, the seed made its way over to Turnberry Court. Some of you may know that Mrs. Kreisman is a Master Gardener and specializes in native plants. She loves to show her yard and is available for advice on native plantings.

Many of you know of the staff changes that have taken place at City Hall this year. Liz Caird, our long time bookkeeper, retired in January. Jean Barbieri, our even longer time bookkeeper, has taken her place. Jude Cochran came to City Hall from the Police Department to take Jean's place in January. Jude had worked as a dispatcher in the police department for several years. Then just about the time everyone was getting settled in their new roles, Joan Can-nata-Fox, our City Clerk, announced her retirement. In anticipation of the tighter upcoming budget it was decided not to replace Joan. Instead, Jude was promoted to City Clerk and the workload reshuffled between the staff. Joan has been helping us out on a part-time basis, but now has sold her home in Boynton Beach and moved to Orlando to be near her son and his family. We wish both Liz and Joan the very best.

Back in the office – Jean Barbieri is the Deputy Finance Director. Jean's responsibilities include Payroll, Accounts Receivable and Financial Reporting. Jude Cochran is the City Clerk. Her responsibilities include Accounts Payable, Utility Billing, and all the assorted meetings and minutes that go along with the Clerk's position. Joy Cooperman continues to work on a part time basis as the Building Permit Clerk. She processes the building permits, inspections and business tax receipts.

Everyone in our office and the dispatchers that work the desk in the police department have the Notary Public designation. Should you need documents notarized someone is available 24/7 to assist. Just don't call us at 3:00 a.m. to perform a wedding ceremony!

On that note: Congratulations to Doreen Major and Philip Holden, now Mr. and Mrs. Philip Holden. Doreen and Philip were married on June 13 at the Atlantis Country Club. We will do weddings if planned in advance!

As always, our phone is answered by a person during regular business hours. All of the staff is available to answer questions and assist with water, garbage and building issues. As always, if you have questions or concerns about the city, please let me know. My email address is mthornton@atlantisfl.gov, or call City Hall during regular business hours.

Mo Thornton
City Manager

2010 HOMESTEAD EXEMPTION APPLICATIONS

The Palm Beach County Property Appraiser's Office will be accepting Homestead Exemption applications from residents. (All Palm Beach County residents are welcome)

Where: City Council Chambers at 260 Orange Tree Drive.

When: The 4th Wednesday of each month, beginning July 22 through December 23, 2009.

Time: 11:00 am to 12:00 pm

A copy of your deed and proof of residency is required.

For further information log onto the Palm Beach County Property Appraiser's website at: www.pbcgov.com/PAPA or call them at [561-355-2866](tel:561-355-2866) or you can contact the Atlantis City Clerk at City Hall [561-965-1744](tel:561-965-1744)

ATLANTIS CITY COUNCIL NEWS:

The Atlantis Council Meeting was called to order at 7:30 p.m. on July 15, 2009.

Resolution No. 09-016, passed 5-0. This resolution authorizes the Mayor to sign the first amendment to the 2004 agreement between Atlantis and Palm Beach County for Interoperability through the County's 800 MHz radio system. The new agreement is valid until September, 2015

Miscellaneous Business: The Millage Rate was set at 6.6226 with a 5-0 vote. The First Budget Hearing was set for September 10th at 5:01 PM.

The Council signed a Proclamation Census Complete Count Committee. The Proclamation will help bridge the gap between our community and the Census Bureau. An accurate count is needed for Atlantis to receive the proper grants and funding.

William C. Mitchell
(official minutes at www.atlantisfl.gov)

POLICE DEPARTMENT NEWS BY ... CHIEF ROBERT G. MANGOLD

Ordinance #385: The police department has received several complaints regarding pet owners trespassing and failing to remove pet "calling cards" on the golf courses. Per Ordinance #385, pet owners are required to clean up after their pets on public and private property, and as the golf courses are private property, people commit trespassing if they do not have a right to be there.

Gatehouse Security Operations: Gates are opened during thunderstorms and when lightning is present to ensure that they are not locked in the down position if a power failure occurs.

Traffic Control Devices: There appears to be a misconception regarding the traffic light turn arrows on Congress Avenue at Clubhouse Boulevard as motorists have been observed turning on red arrows when there is no oncoming traffic. This is a violation of Florida traffic law by failing to obey a traffic control device; motorists are required to wait for the arrow to turn green before proceeding. Atlantis Police Officers have been assigned to perform directed enforcement to correct these violations to ensure public safety.

Hurricane Preparedness

Now that the hurricane season is here, it is important to be as prepared as possible. Here are some helpful tips:

Put important documents and phone numbers in a waterproof container.

All trees and shrubs should be trimmed by now – do not do any trimming before a hurricane is about to come.

Monitor the tropics: tune into local television and radio stations; heed the advice of local authorities; evacuate if ordered. **Do not** return until it is safe to do so.

Remove lawn furniture, pots, plants or any other outside items that could be potential projectiles.

If a storm watch has been issued, do not place yard waste, recycling, or garbage at the curb. Please be patient until normal collection resumes.

You can get helpful information regarding power outages, etc. by going online at FPL.com. To report a hazardous condition or power outage, please call 1-800-4OUTAGE (1-800-468-8243).

If you haven't already prepared a hurricane emergency supply kit, do so now. Remember to include such items as:

- Three gallons of water per person
- Canned & ready-to-eat food, fruits, crackers, etc. and foods that do not require cooking
 - Manual can opener
- First aid kit, prescription and non-prescription drugs
 - Matches in a waterproof container
- Paper cups, plates, and plastic utensils; foil, plastic wrap & plastic garbage bags
- Personal hygiene items such as soap, toothpaste and toothbrush, toilet paper, etc.
 - Liquid bleach to treat drinking water
- Cash – ATM's may not be operating after a storm

Help your neighbors if they are unable to prepare by themselves. Let us all band together and stay as safe as possible this season.

FLOOD HAZARD & PREPARATION INFORMATION**THE LOCAL FLOOD HAZARD**

Every property is at risk of flooding. In fact, there is a 26% chance of experiencing a flood during the life of a 30-year mortgage. Many factors contribute to flooding in areas not designated as Special Flood Hazard Areas. The greatest flood threats come from excessive rainfall that accompanies coastal storms, tropical storms and hurricanes. Finished Construction Elevation Certificates are on file.

The Flood Insurance Rate Map (FIRM) provides flood zone determinations to advise if you are in a flood hazard area. Property within the City of Atlantis is located in several different flood zones. Most properties east of Villa Drive (North and South including Villa Drive) and along Atlantis Blvd. are located in the special flood hazard due to Lake Atlantis and Lake Atlantis South. Properties in Palm Circle adjacent to the C-15 lagoon are in the special flood hazard area. All properties west of Villa Drive are not in a special flood hazard area. You may contact City Hall to find out what flood zone your property is located in.

FLOOD INSURANCE

Homeowner's insurance policies DO NOT cover losses due to flooding. There is a 30-day waiting period. Please note that new flood insurance policies will not be written once a storm is approaching. The City of Atlantis participates in the National Flood Insurance Program, which makes flood insurance available to everyone in the City. For most, a home and its contents are their greatest investment. If your property is even subject to the possibility of flood damage, from hurricanes or otherwise, you should be protected with an NFIP Flood Policy. Contact your insurance agent and have him or her discuss the types of coverage available to you. For additional information about flood insurance, visit FEMA's website at: www.fema.gov/business/nfip/

FLOOD SAFETY

There is no substitute for advance planning and preparation. Be aware of what steps to take to minimize your losses due to flooding. Prepare and annually update an inventory of all personal property with descriptions and photos, store drinking water in clean containers, keep a portable radio and flashlights on hand with fresh batteries, and have adequate first-aid supplies on hand. The local television and radio stations will warn you when it is necessary to secure your property and evacuate. Live electrical lines cause most hazards. If it appears that floodwaters will enter your home, turn off all electric and gas service. If you find that water has entered your home, do not touch electrical switches or appliances to either turn them on or off. Outside, avoid any pools of water in which a downed power line is laying. You must assume that all downed power lines are energized. Do not drive through a flooded area.

To create a personalized disaster preparedness plan for your family and/or business, please visit the State of Florida Disaster preparedness website at: www.floridadisaster.org

SUBSTANTIAL IMPROVEMENT REQUIREMENTS:

The National Flood Insurance Program (NFIP) requires that, if the cost of the reconstruction, rehabilitation, addition, or other improvements to a building equals or exceeds 50% of the building's market value, the entire building must meet the same construction requirements of a new building.

PERMITS

The City of Atlantis Building Department requires permits for all construction. This includes new construction, repair/replacement work, additions, signs, fences, fill, tree removal, etc. The City of Atlantis has adopted the Southern Standard Building Code. Parts of this code regulate the amounts and types of construction in the floodplain. You must always consult with the building official when planning any kind of construction. When others violate our floodplain laws, it could affect your property. The building official should be made aware of such activities.

THE FLOOD WARNING SYSTEM:

The City has a reverse 911 telephone dialing system that will notify of pending storms. In addition, copies of Palm Beach County's Flood Warning Program are available at your nearest county library. Palm Beach County Emergency Management maintains direct contact with the National Weather Service. Local television and radio stations will broadcast hurricane associated flood warnings 36 to 48 hours prior to the flooding event. When the National Weather Service forecast intense rainfall, our drainage system can be lowered in an attempt to receive the extraordinary volume of water expected. During periods of prolonged rainfall, areas of the county are kept under surveillance and reported to the Emergency Operating Center. When advised of problem areas, response actions will be taken. When you detect street flooding in your own area, tune to a television or radio station known by you to have an active news bureau. You will be advised of measures you should take to protect your property and yourself. If you have a weather band radio, tune it to NOAA, weather radio frequency 162.475 MHz to receive local weather updates.

PROPERTY PROTECTION MEASURES

When it appears that your neighborhood is becoming seriously inundated, there are simple things you can do to protect your property: things such as sandbagging building entrances and moving your motor vehicles to higher ground; raise furniture off the floor or move it to upper floors. Many of the things you own are not only valuable but are considered by you to be irreplaceable. These items should be elevated above the floor level to protect them from flood damage. Store materials like tarps, sandbags, plastic sheeting, plywood, and lumber to protect structures, and to make quick repairs after a severe storm. Board up or shutter windows and doors. FEMA resources can now be accessed online at www.pbclibrary.org/grsmainresources.htm

DRAINAGE SYSTEM MAINTENANCE

The Lake Worth Drainage District maintains the lateral canals in Atlantis. The Public Works Department maintains the remaining swales and storm drains. To reduce the risk, severity or duration of flooding; it is vital to maintain the water-carrying capacity of the drainage system. Florida law prohibits the willful obstruction of our drainage systems and provides both civil and criminal penalties for anyone convicted of such a felony. Anytime you see debris partially or completely blocking a storm drain opening please remove and dispose of the debris or call at the City at 561-965-1744. It is illegal to dump or throw anything into the ditches and canals. If you see anyone disposing of anything, including liquids, trash, vegetation or any other debris into any component of the drainage system please report it immediately to the Atlantis Police Department at 561-965-1700.

BENEFICIAL FUNCTIONS OF THE FLOODPLAN:

These benefits take many forms:

Natural flood and erosion control: Provides natural flood and erosion control by flood storage and conveyance, and reducing flood velocity.

Water quality: Improves water quality by filtering nutrients and impurities from runoff.

Ground water recharge: Recharges the ground water while simultaneously reducing the frequency and duration of surface flow.

Biological resources; Supports high rate of plant growth, provides breeding and feeding grounds and enhances water fowl habitat.

Societal resources: Provides open space, aesthetic pleasures for the community and opportunities for scientific and environmental research studies.

NPDES (National Pollutant Discharge Elimination System) REQUIREMENTS:

The City of Atlantis must follow the Federal government's requirements in our NPDES permit. It is everyone's responsibility to protect our water resources. Please do not directly discharge any used water into our watercourses. Simple examples are washing vehicles in close proximity of a storm drain and storing chemicals outdoors. The law prohibits dumping toxic waste, including pesticides, into the ground or groundwater. TOXIC or hazardous wastes include such things as oil and antifreeze. If you see anyone disposing of anything into any component of the drainage system, please report it immediately to the Atlantis Police Department at 561-965-1700.

Outdoor use of pesticides, herbicides, and fertilizers must be applied sparingly to avoid contamination of our surface waters. Please follow directions and do not overspray pesticides or herbicides. Also please do not apply amounts in excess of the recommended amounts for fertilizers. Organic or slow release fertilizers are preferred as these are less likely to be washed off into the storm drain system. Also, please apply only to the targeted areas and remove excess from any paved surfaces. South Florida is a sub-tropical rainfall region, so please consider reducing applications in the wet season and/or apply early in the morning to avoid our typical afternoon thunderstorm pattern in the wet season (June through October).

Storm Water

www.StormwaterAndMe.org

By knowing the facts and being aware, you can help clean up our lakes and waterways. Always remember, **nothing but stormwater** belongs in the storm drains.

Pool Care: Discharge of chlorinated pool water into the city's storm drain is prohibited. Pool water must be de-chlorinated and discharged on to the ground, not into the storm drain system. Discharge from pool maintenance, replastering or other construction is strictly prohibited.

Lawn Care:

- Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts.
- Use organic mulch or safer pest control methods whenever possible.
- Compost or mulch yard waste. Don't leave it in the street or sweep it into storm drains or waterways.
- Don't overwater your lawn. Consider using a soaker hose instead of a sprinkler.
- Cover piles of dirt or mulch being used for landscaping projects.

House Care and Maintenance:

- Purchase biodegradable, non-toxic products.
- Use, store and dispose of products as directed on the container.
- Sweep up and properly dispose of any construction debris.

Vehicle Care:

- Use a commercial car wash or wash your car on a lawn or other unpaved surface.
- Check your vehicle regularly for leaks and/or spills. Clean up and properly dispose of materials used for spill clean up. Repair leaks as soon as possible to prevent future spills.

Be on the lookout for anything being dumped into storm drains or water bodies. Some common illegal discharges to storm drains include:

- Antifreeze
- Automotive fluids
- Construction debris (wood, drywall, concrete, mortar)
- Debris (plastic bags, six-pack rings, bottles, and cigarette butts)
- Detergents
- Disinfectants
- Excessive dirt and gravel
- Fertilizers
- Insecticides
- Grease
- Oil filters
- Paint
- Pesticides
- Pet waste
- Solvents/degreasers
- Trash
- Yard waste (leaves, grass, mulch)
- Take the time to educate others on the negative impact of dumping into a stormwater system.
- Call to report dumping and discharges into stormwater systems.
